INSTALLING + CARE

# H Y L A H A N G E R

## H V H G / A M F

Thank you for purchasing one of our Hyla guitar hangers by Hudson Valley Hardgoods, handcrafted by the skillful artisans at American Music Furniture. Our natural finishes enhance the beauty of the wood, never stained, the natural wood finish will darken with age. The brass caps are hand polished and treated with wax, they may develop a patina over time, to avoid rapid tarnishing, avoid excessive handling.

### INCLUDED

- Hyla wall mount guitar hanger
- wall bracket
- 1 brass screw
- 2 steel screws
- 2 wall anchors

### INSTALLATION

- Mount the wall bracket directly into wall stud for strongest support.
- Average hanging height will sit between 66"-76" off the ground.
- Install the Hyla base to the wall bracket securing it in place with the brass screw provided, do not over tighten the screw to allow for angle adjustments to headstock.

### USING THE STAND

Hang your guitar from the wall mounted stand by placing the headstock between the prongs. The wooden disc will rotate to adjust until your guitar hangs straight.
